

## Engineer Carl F Paradzai

BEng (Hons) Mech Eng, PrEng, MZwIE, AMiMechE, PMP

### Brief Profile

Carl holds a Mechanical Engineering degree from the University of Sunderland UK, and is currently studying his Masters in Business Administration with Heriot Watt University's Edinburgh Business School (UK).

He is a Professional Engineer registered with the Engineering Council of Zimbabwe (ECZ), a member of the Zimbabwe Institute of Engineers (MZwIE) and an Associate Member of the Institute of Mechanical Engineers (UK)

Until February 2020 Carl was the PMI Zimbabwe Chapter 'EDUCATION, GOVERNMENT AND INDUSTRY LIAISON MANAGER'. He is now the VP PROFESSIONAL DEVELOPMENT for the PMI Zimbabwe Chapter

Notably he led a project team that designed and manufactured a material handling system which was affectionately named the "Carl Hopper" upon its successful commissioning. Carl is presently the Head of Engineering for a construction company where he is implementing project management techniques to ensure structures are erected within budget, safely, on time and to the client's specifications. Ensuring their structures are well recognised in the steel construction industry.

Outside of managing projects and being an ambassador for Project Management Carl is an avid martial artist practising Taekwondo, Mantis Kenpo and Kyokushinkai Karate.
